

# The Seeker's Garden

is an elegant set of 45 cards with stand. Each card begins with a striking bouquet of quilted textile art by Nan Yurkanis. Beneath every image is a nourishing message of friendly support for seekers. By "seekers" we mean those good folks whose deep and abiding interest is to more fully embrace the mystery and purpose of life on Earth.

**The Seeker's Garden has 11 different sections with unique topics or themes; each is addressed through four cards.** All four cards in a section are trellised by one of 11 images of original textile art created specifically for this endeavor. The written content has been culled from life study and personal experience, cultivated and re-crafted to fit the purposeful contours presented by the garden itself. **This virtual garden is a humble, joyous place. It is a haven of empathy and support, designed to provide small portions of sustenance and visual delight to all interested visitors.**
